

## **Pastor Deborah - Volunteer of the Month for December**

NAASCA's Newsletter Interview With Pastor Deborah on The Role of Spiritual Care and Adult Survivors of Child Abuse and their Healing from Trauma of Childhood

**NAASCA:** Hello, Pastor Deborah, and welcome to our volunteer guest spot in this December Newsletter of The National Association of Adult Survivors of Child Abuse. We are so honored to have you answering some questions for us about you and your relationship with NAASCA and the ministry you provide to Adult Survivors of Child Abuse.

**NAASCA:** Pastor Deborah, how did you come to volunteer with NAASCA?

**Pastor Deborah:** I had just learned the value of social media, LinkedIn, and had developed a Profile and a Company Page and began connecting with people and organizations that were on LinkedIn and helping people. I connected with Bill Murray and he and I messaged and emailed each other, after we checked each other's website out, and he asked me to become a monthly radio guest on NAASCA and to speak and teach and talk about the role of spiritual care and adult survivors of child abuse. And I said yes. I was assigned the 4th Tuesday of every month to come on the Blog Talk Radio Show of NAASCA and talk about spiritual care, the role of spirituality and faith in healing and support of adults who had been sexually abused.

**NAASCA:** Pastor Deborah, how long have you been helping people?

**Pastor Deborah:** I began early, in my teens and continued on through college and became a Licensed Mental Health Counselor in the state of Florida and a Nationally Clinically Certified Counselor and served in many areas where mental health counseling provided support, education and counseling. I also learned to give psychological testing in many areas including neuro-psychological testing to brain-injured individuals and to provide group education on many areas of rehabilitation.

**NAASCA:** When did you become a Pastor?

**Pastor Deborah:** Beginning in about 1993, I was beginning to desire to offer prayer and support of faith to those I was providing mental health counseling to and would get in trouble for doing such. I was beginning to leave one world of helping people and on my way to another way of helping people, Being a Pastor and from the realm of the Spirit to the Forever Person and to enter into the deep dark world of the occult, evil spirits, bondage, abuse and ignorance of the spiritual realm and it's rulership on a life from the unseen realm. I was told to put down my ways of mental health counseling and to learn how to help people the LORD'S WAY. So, I did.

**NAASCA:** What kind of mental health issues have you worked in and are now working in?

**Pastor Deborah:** I began with some very hard and difficult cases of mental health that had deep spiritual relationships included with the mental health issues. My personal journey started with wanting to help people and finding a Sunday School Class on Spiritual Strongmen and sitting in the class. Then I joined the prayer team and learned about the deep needs of people, then I joined the Deliverance/Personal ministry team and began to see the impact of the Spiritual Strongmen, Word Curses, Generational Curses, The Occult had on lives of lovely Christian people. Then, I study books, YouTube, ancient history, true stories, learned about the effects of child abuse, multiple personalities, trauma, triggers, occult religions, spiritual power and authority.

Then I just keep going, studying and learning things I knew nothing about, but was learning and having personal experiences with. I knew I had to learn fast and grow and believe and then help people this new way, The Lord's Way.

I went and became a minister with the denomination I was in, The Assembly of God, and it was recognized by man that I had a powerful call of God on my life and I was ordained to go and do. I never became officially Ordained with them because I was providing ministry to those in multi-generational Satanist and others in the occult and the denomination became fearful for these groups of people do not play at their faith but will seek to kill you and they did exactly that many times and failed. So out of this fear, I and the Assembly of God decided to separate from each other and go our separate ways.

Now, I am well educated and trained, tested by fire and death, have taken many of these into my own home, financially supported them, and was a spiritual mother to them all. But I had to have a NEW NAME, DEBORAH and be so confident of my education, my boss, His purposes and will for me and people. I am now a community Pastor and volunteer on many groups, am on social media and am a Pastor around the Globe, connected with many around the world and teach online. I also work and provide all free ministry and can speak to and minister from a mental health perspective and a spiritual perspective. I am a unique person who knows both realms, the mental health realm of helping people and the spiritual care realm of helping people in the spirit and out of one's faith in a higher god, whatever or whoever that is.

I now can provide to the community of helpers a viewpoint from both sides, mental health and spiritual care. I am free to minister either way and am comfortable in both realms. I know that my purpose is to bring the role of spiritual care back into the realm of helping people as an equal partner and sitting at the Professional Table as EQUAL and VALUABLE to a people and their families. Now, I am also able to provide minister around the world without leaving my living room, yet face to face, personal and even pray words of deliverance and freedom, healing and hope to those on the social media. Also, the teacher gift has arisen and is now a global teacher to humanity through a

YouTube Channel and Twitter, on LinkedIn and through the many Global Credentials I have.

I hope I answered your questions and would love to come again and for you to ask me more in-depth questions about spiritual care, childhood trauma and its effects on a human and its soul and spirit, about the occult, cults, and how a higher power connection provides help and healing. But, those would be great topics to cover, maybe in a series of newsletters. Each topic needs to be talked about separately and how they affect the soul and spirit of a person in childhood and on into adulthood.

I have included a video on PTSD from my Teaching on Mental Health and The Forever Person: <https://www.youtube.com/watch?v=pfPfQC7SboU&t=432s>

Thank you for the opportunity to speak to everyone.

Love Pastor Deborah
