Believes in and provides **HOLISTIC** treatment and care to a human who is a 3 part system of a physical body, a soul with it's 2 levels of consciousness and is an Eternal Spirit and **all three areas** need healing and restoration.

Through **this wonderful concept and philosophy** of when a human is suffering from a mental health illness, a substance addiction or any addiction it is not only the individual, but also the families and the communities who also suffer and that need help, support and healing.

**The Recovery Village** Believes that all need to discover or re-connect with and be supported by **The Realm of Faith, Hope and Love** that comes from a **Higher Power** that **desires** to join the **team of Professionals** that bring Healing, Knowledge, Restoration and Wellness to all and in all areas that are effected by the illnesses and diseases of **Mental Health, Substance Abuse or other Addictions.**
